FROM: Peggy Pawelek Brown, Manager

DATE: October 17, 2002

SUBJECT: **Iron-fortified Infant Formulas That Do Not Require Medical Statements in the Child Nutrition Programs**

This memo transmits an updated list of iron-fortified infant formulas that do not require medical statements in the Child and Adult Care Food Program. The attached list replaces the list of **Iron-fortified Infant Formulas That Do Not Require a Medical Statement in the Child Nutrition Programs**, issued on January 28, 2000.

- C Provider should offer the formula suggested by the infant's health care provider.
- C If the suggested formula is not on the list of formulas that meet CACFP meal pattern requirements, the provider must have a medical statement completed by the health care provider on file.
- C If the provider offers a different type of formula, the infant's parent (guardian) may choose to decline the offered formula and supply another type. Meals containing only infant formula supplied by a parent, and no other component, are not reimbursable.
